

# HOTELS AND MOTELS

## MOST CITED STANDARDS FOR HOTELS AND MOTELS JANUARY 1, 2001 TO DECEMBER 31, 2001

RANK	STANDARDS CITED		NUMBER
1	1910.134	<b>Respiratory protection</b> was not provided for employees in the workplace.	22
2	80-5	This section applies to <b>abrasive wheel machinery</b> requirements and guarding.	13
3	1910.157	The requirements of this section apply to the placement, use, maintenance, and testing of <b>portable fire extinguishers</b> provided for the employees' use.	12
4	1910.305(b)	<b>Conductors</b> entering boxes, cabinets, or fittings were not protected from abrasion, and <b>openings</b> through which conductors entered were <b>not effectively closed</b> . All pull boxes, junction boxes, and fittings were not provided with <b>covers</b> approved for the purpose.	11
5	1910.147	The minimum performance requirements for the <b>control of hazardous energy</b> were not met for the servicing and maintenance of machines and equipment.	10
6	80-4	Requirements for <b>woodworking machinery</b> were not met.	9
6	1910.1200(e)	Employers did not develop and implement a <b>written hazard communication program</b> for their work places.	9
7	1910.304(f)	The path to ground from circuits, equipment, and enclosures was not permanent and continuous. Included were <b>missing ground pins</b> and broken ground wires.	8
8	60-2	Safe work places and practices were not provided. Standards for an <b>Occupational Safety and Health Program</b> were not met.	7

# HOTELS AND MOTELS

RANK	STANDARDS CITED	NUMBER
9	1910.132 <b>Personal safety equipment or clothing</b> was not worn by employees who were exposed to hazards where these devices were expected to prevent injury. Employers did not assess the workplace for hazards and provide training.	6
9	1910.303(g) <b>Sufficient access and working space</b> was not provided and maintained about all <b>electrical equipment</b> to permit ready and safe operation and maintenance of such equipment. In locations where electrical equipment was exposed to physical damage, <b>enclosures or guards</b> were not so arranged and of such strength as to prevent such damage.	6
9	1910.305(g) <b>Flexible cords</b> were used as a <b>substitute for fixed wiring</b> where not permitted. Flexible cords were not connected to devices and fittings so that <b>strain relief</b> was provided, which would have prevented pull from being transmitted to joints.	6
